

AHMED VALL JEMAL DINE SIDINA

State Engineer | AI & ML Specialist | IT & Digital Transformation Leader

Doha, Qatar | +974 7473 6271 | ahmedvalljemaldine@gmail.com | [Ahmed-vall-cv](#)

PROFESSIONAL SUMMARY

Results-driven State Engineer and former Diplomat with 25+ years of experience leading biometric systems, IT operations, and digital transformation initiatives across government sectors. Specialized in machine learning, data science, and AI-driven solutions, with a proven track record in managing large-scale systems, public procurement, and cross-functional teams.

AREA OF EXPERTISE

AI & Machine Learning, Data Science, Biometric Systems, Digital Transformation, IT Operations Management, Public Procurement, Contract Negotiation, Cybersecurity, Computer Vision, NLP, Strategic Planning, Government Systems

SKILLS

Python, TensorFlow, Scikit-learn, Pandas, NumPy, OpenCV, NLP, Deep Learning, Neural Networks, Data Analysis, Cisco Networking, LAN/WAN, Cybersecurity, Project Management, Technical Support, IT Training

PROFESSIONAL EXPERIENCE

Deputy Consul General

Consulate General of Mauritania – Jeddah, Saudi Arabia | 2019 – 2024

- Led digital transformation of consular operations and documentation systems
- Directed biometric identity issuance and civil registry services
- Coordinated high-level administrative processes with government entities
- Managed and optimized performance of multidisciplinary teams

Director of Secure Document Authentication

ANRPTS – Mauritania | 2015 – 2019

- Directed national biometric registry and secure document systems
- Oversaw passport, ID, visa, and residency issuance operations
- Managed IT infrastructure and technical operations teams
- Implemented quality assurance frameworks for secure production

Dar Al-Computer – Mauritania | 2002 – 2005

- Supervised IT centers across 7 cities
- Managed network infrastructure and system maintenance
- Delivered technical training for government projects

IT Trainer & Maintenance Engineer

Star Technologies & Perfect Consult | 2003 – 2008

- Delivered IT training and system implementation
- Supported regional development and training programs

IT Trainer

Iqraa Institute – Mauritania | 2000 – 2002

- Provided digital literacy and IT training programs

EDUCATION

- State Engineer in Electronics & Digital Development (BAC+5)
- 5-Year Engineering Program | 1992 – 1997

CERTIFICATIONS

- Machine Learning Specialization – Stanford / Coursera (2025)
- Deep Learning Specialization – DeepLearning.AI (2025)
- Python for Data Science & AI – IBM (2024)
- Diploma in Business Administration – United Academy for Training Management (2021)

PROJECTS (SELECTED)

- Built ML models for prediction, classification, and fraud detection
- Developed NLP-based sentiment analysis tools (Arabic & English)
- Designed AI-powered solutions including CV optimization systems
- Implemented deep learning models (CNN, LSTM) for real-world use cases

LANGUAGES

Arabic (Native) | **French** (Fluent) | **English** (Intermediate (B1) | Actively progressing towards B2)
